PRICE TWO CENTS

BIG EVENT IN RUSSIA

INAUGURATION OF FIRST PARLIAMENT OVERSHADOWS EVERYTHING ELSE.

MAY GRANT A CONSTITUTION

DEMOCRATIC MAJORITY OF THE OPINION THAT THE CZAR MUST SOON DO SO.

St. Petersburg, May 7.—The members of the national parliament and of the council of the empire are arriving here on every train. Many distinguished foreign visitors and journalists already have reached St. Petersburg to witness the Thursday's great historic event—the inauguration of the Russian parliament.

The fears that the government might attempt to dissolve the parliament before it had the opportunity of accomplishing anything are vanishing and despite the bomb outrage at Moscow during the day and the continued irreconcilable attitude of the extreme revolutionists there is a more hopeful feeling that Russia may enter smoothly into parliamentary life. This is due not only to the moderate attitude of the Constitutional Democratic majority, whose leaders with admirable self-restraint are holding the extremists in check, but to the manifest desire of the government to avoid a conflict. The cabinet has announced a policy of hands-off, practically saying that the parliament shall have carte blanche and that so long as it does not attempt to meddle with the fundamental laws of the empire the parliament will be allowed to offer its own solution for the crying agrarian problem.

With this attitude of the government, if it is sincerely carried out, the Constitutional Democrats are content. They believe their final victory, when the emperor will be forced to grant a constitution, is not far off—a few months at most—especially if in the meantime they are permitted to accomplish something tangible to strengthen themselves with the country.

Does Not Want a Premier.

M. Naboukloff, the leader of the Constitutional Democrats, during the day said frankly that his party has no desire to have a premier and cabinet, even if it could. Such responsibility would place it upon the defensive, while by remaining in opposition, with the country behind it, the chances of forcing a complete surrender are increased.

The little group of Socialists of the extreme left has not yet shown its hand, but without the Constitutional Democrats it will be powerless to force a conflict. The Octoberists, in the center are a negligible quantity and with the present temper at Tsarskoe Selo the small group of reactionaries sings low.

The programme of ceremonies at the winter palace, where the emperor will deliver the speech from the throne, has been arranged with all the pomp of the Russian state function. The entire imperial family and the court, the former in ancient Russian costumes and the latter in court dress, imperial aides-de-camp, ministers, generals, admirals, officers of the guard regiments, marshals of the nobility and such governors-general and military commanders of the army corps as are in St. Petersburg, the mayors and city council of St. Petersburg and Moscow, under command of the holy synod, are all commanded to attend. The chiefs of missions were invited by an imperial order issued during the day.

The members of the parliament will assemble in the beautiful Nicholas hall, the council of the empire at the Hermitage pavilion and the others at the Armorial, "Field marshals" and other halls, and march in state to the great hall of St. George, a magnificent pillared chamber fifty yards long and twenty five yards wide, where the emperor from the throne will address the parliament and the council of the empire, which will then return respectively to the Tauride palace and the Hall of Nobles, where the formal openings of the houses will take place.

DOUBASSOFF IS WOUNDED.

Bomb Thrown at Governor General of Moscow.

Moscow, May 7.—A bomb was thrown at the carriage of Vice Admiral Doubassoff, governor general of Moscow, as he was being driven to the palace during the day. He was wounded in the foot and his aide-de-camp and a sentry were killed. The man who threw the bomb is reported to have been killed. He wore an officer's uniform.

Access to the palace is barred. Governor General Doubassoff was returning in an open carriage from the

Uspenski cathedral, and the outrage took place outside the carriage entrance to his palace. Several bystanders were injured.

According to the route decided upon in advance the governor general should have returned to the palace by the side entrance; but during the drive he changed his route and thereby ran into the peril he was seeking to avoid.

Vice Admiral Doubassoff's life was saved by the poor aim of his would-be assassin. The bomb exploded on the pavement several paces to the rear of his carriage, hurling the mutilated corpse of the terrorist several yards and tearing off one arm and the face of an aide who was descending from the carriage. Governor General Doubassoff was thrown under the horses' heels. His back was burned and his leg bruised, but he was able to walk unassisted into the palace.

The coachman's skull was fractured and he was taken to a hospital.

It is thought the assassin was the student in whose rooms a bomb exploded Saturday, killing three accomplices but who at the time was watching the palace from a room in a hotel opposite.

Ministry Merely Transitional.

London, May 7.—The Times correspondent at St. Petersburg says he is able to state positively that Emperor Nicholas intends to select future ministers from the national parliament and that the Goremeykin ministry is merely transitional.

Russian Official Assassinated.

Ekaterinoslav, May 7.—The governor general of Ekaterinoslav was assassinated Saturday evening by six persons who fired volleys from revolvers at him and escaped.

ACCIDENT IN SAN FRANCISCO.

Three Members of the Dynamite Squad Injured.

San Francisco, May 7.—The first accident in connection with the dynamiting of dangerous walls by army engineers took place during the day, although smaller quantities of explosives than were used last week are being fired. This necessitates two or more charges of dynamite being exploded before the desired result is attained.

During the morning the engineers were working in the downtown district. Twice had dynamite been exploded under the facade of a tall ruin, and a third charge was being inserted when the wall fell. Three soldiers were buried, but a mass of twisted iron partly shielded them, and only one was seriously hurt.

The day was the first day of official rest since the beginning of the distress. All the municipal departments were closed with the exception of the police stations and hospitals, and Franklin hall, the temporary seat of government, was deserted. The police had little or nothing to engage their attention.

Among the churches the same conditions prevailed as upon the preceding Sunday, open-air services being the rule, even where the buildings are unharmed. At Golden Gate park the usual Sunday afternoon concert was given and was attended by thousands. That the people are beginning to look for some diversion was shown during the evening, when a great crowd assembled to witness a vaudeville show in a hall on Fillmore street. The authorities, however, at the last moment refused to permit the performance.

Two arrests for selling liquor were made during the day and as an indication of the determination to suppress traffic in intoxicants until the saloons are allowed to reopen, one of the offenders was refused bail, and the other's bond was fixed at \$5,000.

Coroner Walsh after reviewing his list of victims of fire and earthquake, informed General Greely that the total number of cases handled by his office is 319, of which 143 were identified and 185 unidentified. This report shows 39 less than given by a previous count.

The streets of the burned districts were thronged during the day with sightseers. Trains and ferry boats were packed with persons eager to get their first glimpse of the city's devastation. Almost every third person carried a camera.

Boy Fatally Injured.

St. Paul, May 7.—Tony Montemora, eleven years old and living with his parents at 67 West Third street, was run down by a street car at Market and Fourth streets during the morning and probably fatally injured. His left foot was severed at the ankle and his right foot so badly crushed that a portion of it had to be amputated. His left elbow was dislocated and he received serious lacerations on the head. The left leg had to be amputated at the knee. His condition is said to be critical.

Mark Twain Ill.

New York, May 7.—Mark Twain, who had planned to leave Saturday for Dublin, N. H., where he was to spend the summer, has been compelled to postpone his departure indefinitely owing to an attack of bronchitis. He took to bed Tuesday with a slight cold. Bronchitis developed Thursday.

END OF THE DEBATE

DISCUSSION OF THE RATE BILL IN THE SENATE TO BE CONCLUDED THIS WEEK.

THE COMPROMISE PROVISION

WILL PROBABLY BE ACCEPTED AS A PARTY MEASURE BY THE REPUBLICANS.

Washington, May 7.—Practically all the members of the United States senate agree in predicting that the present week will see the end of the discussion on the railroad rate bill.

There is among Republican senators some disposition to antagonize the compromise provision for a judicial review, but the fact that this provision is accepted by the conservative senatorial leaders and the president renders it practically certain that the amendment will be accepted as a party measure.

It is not probable that the Democratic senators will carry their opposition to the extent of trying to postpone the final vote on the bill.

They will probably content themselves with chaffing their opponents.

The measure will be considered section by section and each section disposed of in order. The proceedings Friday, the only day on which the senate has acted under the agreement, indicated that there is little prospect of any general change in the measure.

It is expected that changes may be made giving the interstate commission power to compel trunk lines to make connections with other lines and prohibiting transportation companies from engaging in the production of commodities.

There are as yet no plans for taking up other measures after the rate bill is disposed of, but it is expected that some of the appropriation bills will be ready for consideration.

The discussion of the nomination of Mr. Barnes, assistant secretary to the president, as postmaster of the city of Washington, will also proceed.

NAVAL APPROPRIATION BILL.

House Will Complete the Measure This Week.

Washington, May 7.—The national house of representatives will complete the naval appropriation bill this week. If the foreign affairs committee can get the diplomatic and consular appropriation bill ready in time, action also may be taken on that measure. Aside from this legislation the first day is to be devoted to bills under suspension of the rules and Friday to private pension bills.

Night sessions are contemplated to get through the voluminous codification of the criminal laws, which is pending, but no special order to this end has been adopted.

With the naval and diplomatic bills out of the way there remain but two of the annual appropriation bills to be formulated and passed. These are the sundry civil bill, which will be out of committee the middle of May, and the general deficiency, which is always the last, and calculated to carry the odds and ends.

REITERATES HIS VIEWS.

President Roosevelt Again States His Position on Rate Measure.

Washington, May 7.—President Roosevelt during the day reiterated his views on railroad rate legislation in a telegram to the legislative committee of the Pennsylvania State Grange. The telegram follows:

"Telegram received. I am happy to tell you that not only am I standing on my original position as regards rate legislation, but it seems likely that congress will take this position too. The Hepburn bill meets my views, as I have from the beginning stated. The Allison amendment is only declaratory of what the Hepburn bill must mean, supposing it to be constitutional, and no genuine friend of the bill can object without stultifying himself. In addition I should be glad to get certain amendments such as those commonly known as the Long and Overman amendments, but they are not vital and even without them the Hepburn bill with the Allison amendment contains practically exactly what I have both originally and always since asked for, and if enacted into law it will represent the longest step ever yet taken in the direction of solving the railway rate problem."

Father Gapon Alive.

Chicago, May 7.—"Father Gapon has not been lynched by Russian anarchists. On the contrary, he is in Switzerland, alive and well, as I positively know," said Ivan Ivanovitch Narodny in an address before a Socialist gathering here. Narodny came to the United States with Maxim Gorky.

SECOND CLASS MAIL MATTER.

Postmaster General Cortelyou Wants a Commission to Inquire Into It.

Washington, May 8.—Postmaster General Cortelyou has recommended to congress the appointment of a commission to inquire into second-class mail matter with a view of ascertaining what modifications of the present second-class laws are necessary. The commission would render its report to congress not later than Dec. 10, 1906.

In order that all interests may be represented, Mr. Cortelyou has recommended that the commission consist of seven persons and be made up as follows: One senator, selected by the president of the senate; one representative, selected by the speaker of the house; one officer of the postoffice department, selected by the postmaster general; one representative of the publishers of daily newspapers; one representative of the publishers of weekly, semi-weekly and tri-weekly newspapers, and one representative of the publishers of periodicals and magazines—the last three to be appointed by the president of the United States from among those recommended to him by representative associations of publishers—and a seventh member to be selected by the other six. An appropriation of \$25,000 is asked to defray the cost of the investigation.

In recommending the commission the postmaster general says:

"The existing statutes regulating the second-class mail matter are out of date; they do not meet modern requirements of the publishing industry and the administration of them unnecessarily and unreasonably hampers the publishers of bonafide newspapers and periodicals."

STRIKE OF MINERS AVERTED.

Employees Will Probably Agree to All Demands of Operators.

Scranton, Pa., May 7.—Nothing developed during the day to disturb the general belief that a strike of the anthracite mine workers had been averted.

It is felt that the readjustment of working conditions can be made quickly at each colliery, providing the men use a little patience and also providing that the foremen make an extra effort to restore peace and harmony.

The sub-scale committee, composed of President Mitchell, the three district presidents and the three district secretaries, will go to New York for the conference during the afternoon and will report later to the convention here. It is expected that the convention will ratify the report and vote for a resumption of work on May 14.

While President Mitchell would prefer an agreement for two years, the committee, it is understood, will bow to the wishes of the operators and accept an agreement for three years if the latter so desire.

EVIDENCE POINTS TO MURDER.

Dead Body of a Man Found on the Prairie Near Morris, Man.

Morris, Man., May 7.—While playing on the prairie near here, two boys, through the agency of their dog, discovered the body of a man, and all investigations go to show that a cold-blooded murder was committed. The body had been partly eaten by wolves. The nose was gone, and the fleshy portion of the body was entirely eaten away. The rest of the body appeared as if it had been through a prairie fire. On closer examination the signs of foul play were clearly in evidence. The jawbone on the left side was cleanly broken, and there was a large bruise on the forehead. A blood-stained club was found in the vicinity.

It is thought the man was a farmhand, was murdered for his money and an attempt was made to burn the corpse to conceal the crime.

UNLOAD SEVERAL VESSELS.

Nonunion Men Employed on Docks at Cleveland.

Cleveland, May 7.—There was some activity on the local docks during the day, nonunion men being employed on the outer docks unloading several boats. The North Wind, which came in from Buffalo, found forty men waiting and under the supervision of four men brought from Buffalo, 100 tons of freight were discharged and the steamer left during the evening for Duluth, carrying 300 tons.

The longshoremen declined to state whether any meetings had been held here to consider the strike situation. Union leaders said they knew nothing of any friction between longshoremen and mates, as reported. Many union longshoremen witnessed the unloading of the boats but offered no trouble.

Rosewater Wants to Be Senator.

Omaha, May 7.—The candidacy of Edward Rosewater, proprietor of the Omaha Bee, for the Republican nomination for United States senator at the coming state convention, is announced in the Bee in a signed article by his son, Victor Rosewater, managing editor. Mr. Rosewater, Sr., is at present in Rome as the official representative of the United States at the universal postal congress.

STORE NEWS

New leather belts

received this morning.

Leather belts are much worn at present and manufactures are producing some very novel ideas. We received some very neat 50c qualities, which, added to those we are showing at present, make a showing you will be pleased to select from.

The best comb bargains

we have ever offered.

It is very heavy top back comb in assorted styles. A quality that you would not object to paying 50c for. We know that it is, without doubt, the best back comb bargain offered today. Our price is but 25c.

Our curtain materials

should have your attention.

We have some very neat effects in Swisses, madras cloth and curtain nets which will help you to solve the "what-to-put-at-that-window" question. From 10c to 65c the yard, is the range of prices and the color assortment is very good.

Do you read our "ads"?

Here's reward for you if you do.

Just to test the value of our advertisements we make the following offer: Tomorrow-Tuesday-we will give you the choice of any of our 15c ribbed hose for children for 7c. We will sell but two pair to a customer. All sizes from 5 to 9 1/2.

H. F. MICHAEL Co.

BRITISH AND ZULUS FIGHT.

Soldiers of the King Kill Sixty of the Black Warriors.

Durban, Natal, May 7.—Colonel Mansell's column, which is pursuing the Zulu rebels under Chief Bambaata, was attacked during the day by Zulus while descending a precipitous hill near the grave of Chief Cetliwayo. Sixty Zulus were killed. Colonel Mansell had three men wounded.

Colonel Mansell was engaged in a reconnaissance from Fort Yollandt. He was co-operating with other columns in expelling the rebels from a forest with a view to cutting Bambaata off from escape. He thought the Zulu attackers were Bambaata's men. They numbered altogether over 1,000 men and attempted to employ the crescent formation adopted in the Zulu war and only Colonel Mansell's prompt disposition of his forces prevented a disaster.

Our Trade With Brazil.

Washington, May 7.—A bulletin issued by the department of commerce and labor says that the trade of the United States with Brazil aggregates in round numbers \$110,000,000, a larger sum than with any other country of South America. Our imports from Brazil for the fiscal year 1905 aggregated \$99,843,094, and our exports to that country were \$10,985,096.

Heavy Frost in Nebraska.

Lincoln, Neb., May 7.—There was a killing frost in parts of Nebraska during the night, but the damage done cannot yet be accurately measured. Frost covered the ground in this county and at Broken Bow ice formed. The principal damage will be to fruit.

Men Called From Vessels.

Milwaukee, May 7.—Ten men were called from the Clarion and Wisahickon, Anchor line boats, by union officials during the day. Three firemen and two others left each vessel.

TELEGRAPHIC BREVITIES.

The parliamentary elections throughout France Sunday resulted in gains for the government.

Senator Beveridge of Indiana has accepted an invitation to speak at the annual banquet of the American colony in Paris, France, July 4.

The typhoid epidemic in the City of Mexico is practically stamped out, only two cases and one death being reported in the past twenty-four hours.

The twentieth national convention of the Independent Order Brith Abraham began in New York city Sunday with several hundred delegates in attendance.

Aquila Triplet, wanted at Omaha in connection with land fraud prosecutions, was arrested at El Paso, Tex., Sunday by a United States secret service agent from Omaha.

Mrs. Henry H. Honore, eighty years old, mother of Mrs. Potter Palmer, and a pioneer resident of Chicago, died at her home in Chicago Sunday, as the

result of a fall last Wednesday.

According to official figures the Southern Pacific company during the exodus from San Francisco following the earthquake and fire carried 300,000 free passengers. This total is for the nine days from April 18 to April 26.

DURING A DRUNKEN QUARREL.

Two Brothers Killed and Another Man Injured.

Greensburg, Ind., May 7.—In a desperate pistol fight at New Point, six miles east of here, Pleasant Land was shot and almost instantly killed, and his brother, Winfield Land, was shot through the head and died later. Jeff Williams was also shot, and is not expected to live. Garfield A. Williams and William Bare, the other participants in the affair, were not injured and are now in the county jail here.

The shooting occurred in Charles Carr's saloon Saturday night, but owing to a break in telephone connections, the news was late in reaching here. The trouble followed a drunken quarrel.

The Pain Family

You know them; they are numerous, and make their presence felt everywhere. The names of the family are Headache, Toothache, Earache, Backache, Stomach ache, Neuralgia, etc. They are sentinels that warn you of any derangement of your system. When the brain nerves become exhausted or irritated, Headache makes you miserable; if the stomach nerves are weak, indigestion results, and you double up with pain, and if the more prominent nerves are affected, Neuralgia simply makes life unendurable. The way to stop pain is to soothe and strengthen the nerves. Dr. Miles' Anti-Pain Pills do this. The whole Pain family yield to their influence. Harmless if taken as directed.

"I find Dr. Miles' Anti-Pain Pills an excellent remedy for overcoming headache, neuralgia and distressing pains of all sorts. I have used them for the past seven years in this capacity with the best of results."

MRS. JOE MERRILL, Peru, Ind.
Dr. Miles' Anti-Pain Pills are sold by your druggist, who will guarantee that the first package will benefit. If it fails, he will return your money. 25 doses, 25 cents. Never sold in bulk.

One Year Strictly in advance Four Dollars

MONDAY, MAY 7, 1906.

Weather

Forecast—Fair and warmer.

The government dams on the Mississippi river are a source of much annoyance to the Duluth News-Tribune during the high water period.

Every person in the United States has \$32.22, at least that is the last report of the per capita circulation of \$4,428,000 and breaks the record.

A Chicago judge has held that a woman can have cold feet and take them to bed with her. John Russell on two occasions whipped his wife because her cold feet annoyed him and she applied for a divorce and it was granted.

AND now comes the news from St. Paul that Senator Brower is about to announce his candidacy for governor and that Alvah Eastman is in the game to defeat Knute Nelson for re-election to the U. S. Senate. One has to go away from home to learn the news and both St. Cloud gentlemen will undoubtedly be surprised when they read this bit of gossip.

Just to show how near the political forecast from St. Paul comes to being the truth we produce the item that "C. E. Vasaly of Little Falls and Dr. Hemstead of Brainerd are mentioned as candidates for the senate from the 48th district." The first named gentleman is a candidate for a county office in Morrison county and the latter is not paying any attention to politics.

LOCAL NEWS NOTES.

Senator Frater is in Duluth today.

Ed. Koop came in from the west today.

J. M. Quinn came in from the north today.

E. E. Bernard, of Smiley, is in town today.

SUDDENLY

Enrik Uddenberg Died Last Evening of Pneumonia—He Was Sick only Two Days

PROPRIETOR OF RESTAURANT

Funeral to be Held Wednesday Afternoon at the Swedish Lutheran Church

Emrik Uddenberg, for the past eight years proprietor of the Dairy restaurant at 222 south Sixth street, died at his home, on south Ninth street about seven o'clock Sunday evening of pneumonia after an illness of only about two days. Mr. Uddenberg was in his place of business Friday, but complained of pains in his chest. He was taken worse that night and failed rapidly until the end came.

Mr. Uddenberg was well known in Brainerd, having been cook at the Arlington for nine years prior to going into business for himself. He was a quiet kindly man who made friends with all who knew him.

Emrik Uddenberg was born in Kalmar, Sweden, November 14, 1861, and came to America in 1889, coming direct to Brainerd. He was married in Brainerd on January 7, 1899, to Emma Soderman, who survives him. Three small children, two boys and a girl are also left. A brother, John Uddenberg, who was associated with him in the restaurant, and two sisters in Sweden are the only close relatives who survive.

The funeral will be held Wednesday afternoon at 2 from the residence and at 2:30 at the Swedish Lutheran church, Rev. A. Mattson officiating. Interment will be at Evergreen cemetery.

Mr. Uddenberg was a member of the North Star Scandinavian society and of the Maocabees.

to D. M. Clark's morgue for embalment and was shipped from here to Northfield for burial Saturday night.

One of the largest audiences that has filled the Presbyterian church for years gathered Sunday afternoon to do honor to all that was mortal of Mrs. Clara Dressen. There were also many handsome floral tributes. Interment was in Evergreen cemetery.

WHEN HER BACK ACHES.

A Woman Finds All Her Energy and Ambition Slipping Away.

Brainerd women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Here's proof of it in a Brainerd woman's words:

Mrs. John C. Beck, of 615 Maple St., Brainerd, Minn., says: "The merits of Doan's Kidney Pills are second to no other kidney medicine. Mr. Beck suffered with his back and kidneys for a long time. There were continual pains and an annoyance from a disturbed condition of the kidneys. He tried one treatment after another but always without noticeable benefit. Doan's Kidney Pills were so highly recommended that he decided to try them and procured a box at H. P. Dunn & Co.'s drug store. It proved just the remedy he needed for the benefit was prompt and effective from the first dose and a continued use of Doan's Kidney Pills entirely eradicated the whole trouble."

For sale by all druggists. Price 50 cents. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name—Doan's—and take no other.

It will pay you to read Hoffman's advertisement of Paints in today's issue.

TRIED TO COMMIT SUICIDE ON TRAIN

William Miles, of Bemidji, Attempts to Commit Suicide on N. P. Train.

BOUGHT POISON IN BRAINERD

Was Taken to Hospital at St. Cloud and Partially Recovered but is Still Ill.

Apparently in a stupor and half crazed from drink William Miles, of Bemidji, on Saturday afternoon about 2:30 o'clock took a dose of laudanum while riding on No. 6, the Northern Pacific passenger which passes through St. Cloud at 3:40 p. m., and but for the timely assistance of the trainmen and some of the traveling men on the train he would have expired in a few minutes.

Those who came to the rescue of the unfortunate man dragged him to the rear platform of the last coach of No. 6 and there they worked over him for about an hour until St. Cloud was reached. They had been successful to a certain degree in getting much of the venomous substance from his stomach by a pumping device which had been ingeniously arranged, so that the man was virtually out of danger when he reached St. Cloud. He was hustled over to St. Raphael's hospital at once and Dr. Beebe was summoned and he worked over him for sometime, making sure that the man was freed of the poison.

Spent a Bad Night.

Miles spent a bad night of it at St. Raphael's hospital, but he seemed to revive somewhat yesterday and by noon had regained his mental capacity somewhat and talked freely, and although he was very nervous and the effects of the terrible ordeal which he had passed through told on him he showed none of the hallucinatory traits common in cases of this kind. He admitted that he was somewhat bewildered over waking up in a hospital and claimed not to know anything of what had transpired during the hours previous to his being taken there.

Crazed by Drink.

The story told by the unfortunate man was in effect that he had been drinking heavily, drinking so hard in fact that he was out of his head entirely. He left Bemidji on Saturday morning and was enroute to Texas. He had a ticket on his person good from Bemidji to Texas and he also had a quantity of money. Asked if he remembered anything of the circumstances of his trip from Bemidji to St. Cloud he said he remembered nothing after he had left Bemidji, and if he took poison, as it was claimed, he did not remember buying the same. He did recall being switched around in the yards somewhere and he presumes that it was at Brainerd, although he was not sure of that. To a Times reporter he stated that he had had some little trouble and this had caused him to take to drink, but he appeared to be very repentant over the whole matter and swore if he ever got out of this muddle that he would never touch whiskey again.

porter he stated that he had had some little trouble and this had caused him to take to drink, but he appeared to be very repentant over the whole matter and swore if he ever got out of this muddle that he would never touch whiskey again.

Laudanum Bought at Brainerd.

The poison which Miles took was bought at Brainerd and the strange thing about the whole affair is that he claims that he does not remember one thing about being in Brainerd, and cannot recall having bought the laudanum. He states that he was crazy at the time or he never would have taken it. The small vial had the label of a Brainerd drug store on it, but the bottle was thrown away or was lost in the confusion after the man had been removed to the platform on the train, and the name of the firm cannot be recalled.

Called for Wife and Brother.

While at the hospital in a delirious condition last night he called for his wife and his brother and it was by this means that his identity was first established. He is a brother of C. H. Miles, of Bemidji, and the latter was notified at once. The unfortunate man has a wife and several children living at Bemidji, and during the hours of his restlessness he called out for them in endearing terms, at times half moaning and half crying as though his mind was weighted with anguish. He had worked for his brother at Bemidji for about a year and had decided to go to Texas to look over the country, as he expressed it. He said there was no motive for the rash act and he cannot account for his rash actions at all.

Miles is a man about 35 years of age and was apparently well dressed and seemed not to lack for money. He states that he will proceed on his journey as soon as he gains sufficient strength.

The whole affair seems to be rather mysterious and it is thought there is really more at the bottom of it than Miles is willing to admit.

GIVEN A PURSE

Rev. P. G. Nelson Given a Reception and A Handsome Sum of Money Saturday Evening

Saturday was the first anniversary of the arrival of Rev. P. G. Nelson, pastor of the Swedish Baptist church in Brainerd, and also, by a happy coincidence, the anniversary of his birth. The members of his church and congregation took advantage of the fact to testify to their appreciation of his work here by giving him a reception. A large number turned out and enjoyed a social evening. Refreshments were served and Mr. Nelson was presented with a handsome sum of money. It fact the sum was so large that the leather sack in which it was presented to him would not stand the strain and was badly torn. A very enjoyable time was had by all present.

Get the Habit.

The Mission of Rev. John Robertson

The mission of the Rev. John Robertson, D. D., opened yesterday in the First M. E. church at 10:30 a. m., First Baptist at 3 p. m. and the First Presbyterian in the evening at 8 o'clock. At each service Dr. Robertson was greeted with large congregations—at the Presbyterian church standing room was at a premium. "Wonderful" was the common verdict of all who had the privilege of hearing him. Dr. Robertson is a man of sound doctrine and one who preaches a plain Gospel depending upon the Holy Spirit and the power of prayer to bring results.

All are invited, regardless of denomination to attend the services of this week. This evening the meeting will be held in the First Congregational church.

GOOD GAME OF BASE BALL

North Stars and Aitkin Put up a Warm Contest Though Ragged in Spots.

LOCALS WIN OUT 8 TO 4

Cold Weather Prevents Extremely Fast Work, but Game Was Interesting.

Considering the state of the mercury Sunday afternoon there was a large turnout at the ball game between the North Stars of this city and the Aitkin team.

The game was called promptly on time with Bush in the box and Parker wearing the mask. It was one, two, three, with Aitkin and then they turned around and bestowed a goose egg on the North Stars. In the second inning Aitkin succeeded in getting two men over the plate and bestowing another cipher on the Brainerd team. The boys returned the compliment to Aitkin in the first half of the third. Then the Stars got two men on bases with two men out. Aitkin had been making sport of a guy who was playing without a uniform on second base but when old Jack Boyle stepped up to the plate and swatted one over the left field fence for two bags, bringing in two runs and tying the score they discovered that it did not take a uniform to make a ball player. Two more runs were scored before Aitkin succeeded in stopping the slaughter.

For two innings there was nothing doing, though Olson fanned in the fifth with the bases full and repeated the feat in the seventh. In the sixth inning the Stars got another man over the course and in the eighth three more were scored. Aitkin had not seen the home plate since the second inning, but made a desperate rally, which coupled with a little poor judgment and a wild throw let in two runs for them in the first half of the ninth. But our boys pulled themselves together and the stuff was off.

Bush and Parker worked together finely and had good support in the main, though ragged in one or two instances. Spaulding of Aitkin pitched a good game but his support was poor, the first base being especially weak. Henry Boyle umpired the game and there was very little kicking on his decisions.

One of the features of the game was the work of Heft, the one-handed fielder from Aitkin. He is a good fielder and a quick thrower and made a line drive that Bush was in a hurry to get out of the way of.

The North Stars make a trip to Pine River next Saturday and Sunday and expect to materially strengthen their team before that time. At least one man will probably be retired from the team permanently as he let in two scores by dropping an easy fly and struck out every time he went to bat.

There were eight hits made on Bush and fifteen on Spaulding, according to the Brainerd scorer.

RAILROAD NEWS

Items of Interest Regarding Railroads and Railroad Employees

Wm. Lincoln, master mechanic of the Staples shops, was in the city Sunday on business.

F. E. Stanley, of Staples, was up to spend Sunday with Mrs. Stanley who is at the Sanitarium.

J. O'Keefe, a boilermaker at the N. P. shops, went to Cross Lake today to do some work for the Northland Pine company.

Chas. Buck, and R. E. Means, of Chicago, and M. Larson and A. Potter, of Rock Island, have accepted positions as machinists in the N. P. shops here.

Dee Simons has been sent west on duty in connection with the double tracking on the line between Staples and Fargo and James W. Kenney has been promoted to foreman of the store room at the shops during his absence.

Jamestown, N. D., May 5.—The work of the Northern Pacific in reducing the grade at Valley City is progressing steadily. The cost of the cut-off is estimated at \$1,250,000 and it will take about two years to complete it. It is learned that the cut-off will leave the main track at Alta and again join the main line at Dereca, and that it will be half a mile shorter than the present line. It will be used for freight traffic only. The material for the work of construction is expected in a short time.

The year 1905 was a record-breaker in the way of railroad building and extension in the northwest, but this year bids fair greatly to outdistance the record of 1905.

The greatest piece of work being undertaken in the west is a stretch of 225 miles, now started by the Northern Pacific road from Kennewick, Wash., to Vancouver, along the shore of the Columbia river. This work is in greater

part rock-cutting, and expensive. The work complete will cost \$25,000,000.

The Northern Pacific is also building a sixty-five-mile extension beyond Coldersac, Idaho, and seventy miles extending along the north side of the Snake river from Walloula east.

An important work which will take some years to complete, is the construction by the Great Northern of a 500-mile line from Midway, Wash., west to Vancouver.

Montana is seeing a 225-mile extension of both the Great Northern and Burlington lines. These roads have this spring begun extensions from Billings to Armington, Mont., 225 miles of heavy grade work.

The Great Northern has several other important extensions in progress this spring. They include a thirty-five-mile strip from Aneta to Devils Lake, N. D., part of which is being double-tracked; an extension from St. John, N. D., to Brandon, Man.; a line extending thirty-five miles north from Greenbush.

TRAINING FOR SEA GIRT

Brittons Are Getting Ready to Try for Places on the Minnesota Team Again.

Brainerd's three crack rifle shots, Francis, Frank and Fred Britton, who went to Sea Girt, N. J., on the national guard rifle contest last year, will try for places on the Minnesota team again this year. They were out Sunday afternoon at the rifle range and began their practice. The work is all done with the Kragg-Jorgenson army rifle and consists in firing at fixed targets at 200 to 600 yards, rapid firing and skirmish firing. In the rapid firing a disappearing target is used. It is in sight just 20 seconds and the rifle, which must be at the side, must be raised and five shots fired before the target disappears. The skirmish firing is done on the run, so to speak, halting just long enough to fire, and is between the distances of 200 and 600 yards.

Volo

The Machine of Quality

As a locomotive engineer loves his engine so does a woman take pride in her Volo. It is the result of forty years' careful study, and represents the combination and perfection of the best points to be found among all other sewing machines together with distinctly new and original features and improvements.

The head is automatic lifting and made throughout of the very finest material. The automatic tension-release makes it possible to remove work quickly by merely raising the presser foot lever. The stationary caps covering the top of the needle bar relieves the eye of the constant up and down motion of the needle bar, and also prevents dust from accumulating on the bearings.

The hand wheel is detachable and can be thrown out of gear to wind the bobbin simply by turning the thumb screw. The attachments are perfect and roller bearings make the Volo the easiest running machine in existence.

The greatest care has been taken in perfecting the parts, and no pains have been spared in its finish. The Volo is the best machine made and it looks it.

Price, \$40.

Every Volo fully guaranteed.

Slipp Gruenhagen Co.

217-219 So. 7th street.

There is Welcome

In the very Appearance of our Red and Rattan Furniture.

After the day's work or sport there is a wealth of comfort in one of our Heywood-Wakefield chairs. You sink into it, it rests you all over.

THAT

is characteristic of all Heywood-Wakefield furniture. It is built on broad, restful lines. It has been designed by expert designers. It has

COMFORT

Its lines are pleasing to the eye; it is light and easily moved; it is sturdy and will stand the wear and tear of daily use.

Our Reed goods will beautify the parlor; they are necessary in the bedroom, and they give that easy restful state of mind which is the most pleasing feature of the hall or library.

C. M. PATEK

Ask to see our Porch Chairs.

WELCOME WORDS TO WOMEN.

From the view point of the average man housework is very easy. The wife is right at home. She is her own mistress. She can sit down and rest any time. She can even go to bed for a nap if she feels like it. She can order her household affairs just to suit her own convenience. If she doesn't feel equal to doing work to-day, she can do it to-morrow. That's the beautiful theory of the average man.

Just suppose the Egyptian task-masters, when they made the required daily tale of bricks tax the uttermost of human strength, had said to the toiling slaves, "Don't hurry, take a rest every now and then—only don't forget that your tale of bricks must be all right at night or else there'll be trouble."

There's the fact. There are the day's duties to be got through, and the women who can rest may not. The woman, who, when she married, said, "Now, I'll be my own mistress," finds herself a slave to household cares and duties.

And oh! how much that woman needs rest sometimes. She brushes and scrubs, and rolls pastry, her temples throbbing, her back aching, her nerves quivering under the stress of pain. What she would give if she could just creep upstairs and throw herself on the bed in a darkened room and rest.

Rest would temporarily relieve the strain, doubtless, but it would be the same story over again to-morrow. The real need of weak, nervous women is strength, and that need is fully met and satisfied by Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. It removes the causes of women's weakness, tranquilizes and invigorates the nerves, encourages the appetite and induces restful sleep. "Favorite Prescription" is a positive cure for the most complicated and obstinate cases of leucorrhoea, excessive flowing, painful menstruation, unnatural suppressions and irregularities, prolapse or falling of the womb, weak back, "female weakness," anteversion, retroversion, bearing-down sensations, chronic congestion, inflammation and ulceration of the womb, inflammation, pain and tenderness of the ovaries, accompanied with "internal heat."

"I am pleased to add my testimony in behalf of Dr. Pierce's Favorite Prescription," writes Miss Earline Agard, Chaplin, of 413 1/2 Michigan Avenue, Lansing, Mich. "I cannot find language to express my gratitude and joy over the fact that I am well once more. Wearing my corsets too tight seemed to have brought on an extra abdominal pressure, weakening the ligaments and pushing the internal organs down. What to do I knew not, as no medicines I took seemed to help me."

"I had heard of Dr. Pierce's Favorite Prescription and determined to try it, as a last resort. Before the first bottle was used I began to feel better, but could hardly believe that this was permanent, but my improvement went steadily on, and within four months I was like a new woman. Now I have no more pains, am well and strong, and am extremely grateful to you."

There is nothing to conceal about the make-up of "FAVORITE PRESCRIPTION." It is an absolutely pure medicine—

made of native roots—Nature's own restoratives, compounded after a formula concerning which there can be no question, by skilled chemists and by thoroughly scientific processes. Doctor Pierce is perfectly willing to let every one know that his "FAVORITE PRESCRIPTION" contains Blue Cohosh root, Lady's Slipper root, Unicorn root, Black Cohosh root and Golden Seal root. Every doctor knows that such a prescription is beneficial in the diseases of women and when properly compounded is certain to effect a cure in nearly all cases when given a fair trial. Every bottle of the "FAVORITE PRESCRIPTION" which leaves Dr. Pierce's immense laboratories in Buffalo, N. Y., has plainly printed upon its wrapper all the ingredients of which it is composed. Thus Dr. Pierce proves to the world his own confidence in the remedy which for forty years has borne his name and which is known all through the United States and Canada, England, Australia, and in parts of South America, Africa and Asia, as a sovereign cure for those diseases which, unchecked, make our women old before their time.

It will be noticed that there is no alcohol in the "FAVORITE PRESCRIPTION." Dr. Pierce never believed in using alcohol in the preparation of his famous household remedies. For it, he substitutes chemically pure glycerine, which has wonderful properties for extracting the medicinal principles of roots and preserving them at their full strength, without any deleterious effect whatever.

In favor of Dr. Pierce's medicines is the frank, confiding, open, honest statement of their full composition, giving every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers of all the several schools of practice as cures for the diseases for which these medicines are recommended.

Your druggists sell the "FAVORITE PRESCRIPTION" and also that famous alternative, blood purifier and stomach tonic, the "GOLDEN MEDICAL DISCOVERY." Write to Dr. Pierce about your case. He is an experienced physician and will treat your case as confidential and without charge for correspondence. Address him at the Invalids' Hotel and Surgical Institute, Buffalo, N. Y., of which he is chief consulting physician.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

Send 31 one-cent stamps to cover cost of mailing and get a copy of Dr. Pierce's Common Sense Medical Adviser, over 1000 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

less one has a real lace veil, tulle is the accepted substitute, attached by a few orange blossoms. Needless to say, the transparent lace yoke and elbow sleeves are universal.

TRYONE.

The "Tryone" neckwear supporter is a double bone, silk covered endless loop, that does not stick into or scratch the neck, is light in weight, durable and made of a solid material that is rust-proof and keeps its shape even in the

hands of the laundress. Should a heavier single support be desired, the same material is made up in single form and known as "Lastikon." Both styles come in black or white silk coverings and in assorted sizes.

LITTLE BLACK SILK ETONS are a benediction—matching anything

erous than ever. White linen tennis waists, with turn-down collar are being sold so rapidly that they are ordered several weeks in advance. Elegant lace waists show combinations of three or four real laces and hand-embroidery in addition, of course correspondingly expensive.

VERONA CLARKE.

ILLUSTRATION.

BRIDAL COSTUMES.

The June bride has before her quite a choice of materials, and substitutes for the traditional heavy satin, are found in chiffon satin, Liberty satin or messaline. Chiffon cloth, voile, veiling, laces of the lighter order or figured nets are all available. The prevailing style is the Princess, the fullness either shirred or laid in tucks, and usually the very short bolero is formed by lace or a garniture of some kind. Skirts may be plain or trimmed with wide folds of lace, and are this season very long. Un-

FREIGHT RATE HEARING.

That in St. Paul Comes to an Abrupt End.

St. Paul, May 4.—Minnesota shippers and jobbers interested in the proposed reduction in freight rates on merchandise were given a hearing before the state railroad and warehouse commission at an adjourned meeting during the day. The hearing was a continuation of the hearing held last month, when the railroads presented their objections to the proposed tariff schedules. Winona shippers and jobbers took a decided stand against the proposed schedules, while representatives from Mankato, Rochester, Moorhead and Fergus Falls favored a change in the present rates.

The hearing broke up abruptly early in the afternoon, owing to the refusal of those urging a change in rates to be cross-examined by C. A. Severance, attorney for the railroads. After a ruling by the commission that Mr. Severance had a right to cross-examine the witnesses, the shippers and jobbers present favoring the proposed schedule took their coats and hats and proceeded to leave the room.

POWDER WORKS BLOWN UP.

Two Men Killed and Several Others Injured.

Louisa, Mo., May 4.—The machine house, gun cotton house and dry cotton house of the La Motte Powder works, situated two miles from Ashburn, Mo., blew up during the day.

Charles Bernard of Haverton and Henry Pulse of Ashburn were killed and several other persons were injured.

The shock was felt and the report heard here, twelve miles distant.

TWO KILLED BY A BOMB.

Another Prominent Russian Is Seriously Wounded.

Warsaw, May 5.—M. Proskuriakoff, chief of the traffic department of the Vistula railroad, was seriously wounded, and M. Gutner, chief of another department, and an office servant, were killed by a bomb during the afternoon. As they were leaving the railroad of fices a man threw the bomb at them, smashing their cab and seriously wounding the cabman and nine others.

Nonunion Crew Secured.

Superior, Wis., May 5.—The firemen and others of the Tomlinson steamer Socopa deserted that vessel in port here and despite overtures refused to go further. They accordingly were paid off and a new crew of nonunion men was organized.

and everything, easily thrown off and covering the defects of a partly-worn waist, provided the front is fresh.

LACE SKIRTS.

The hand-crocheted Irish lace skirt while very fashionable and expensive, is a coarse-looking affair; a fresh illustration of Fashion's eccentricities. French hand-crochet is a degree more tolerable, and both varieties are combined with patches of hand-embroidered linen. Jackets of these heavy laces are in Eton or bolero form, or in long shapes that are confined by a belt. Lace capes are multitudinous, some large, some small, some heavy and some lightweight. Lingerie waists are more numerous than ever.

White linen tennis waists, with turn-down collar are being sold so rapidly that they are ordered several weeks in advance. Elegant lace waists show combinations of three or four real laces and hand-embroidery in addition, of course correspondingly expensive.

VERONA CLARKE.

MANY MEN INDICTED

ON CONSPIRING TO DEFAUD THE GOVERNMENT.

TRIED TO GET OREGON LAND

TWO HUNDRED THOUSAND ACRES

SAID TO HAVE BEEN SOUGHT BY CONSPIRATORS.

Portland, Ore., May 7.—Late in the evening United States District Attorney W. C. Bristol made public the names of twenty-one persons included in the final and most important government land fraud indictments returned by the federal grand jury, which during the day brought its hearings to a conclusion and was discharged.

The indictments, which charge a far reaching and intricate conspiracy to secure 200,000 acres of some of the finest timber land in Oregon, in Crook, Lake and Klamath counties, name F. W. Gilchrist, Ralph Gilchrist, Patrick Culligan and James McPherson, Alpena, Mich.; H. W. Stone, Benson, Minn.; Baron C. A. M. Q. S. Schillerholz, Little Rock, Ark.; Charles M. Elkins and Jack Combs, Prineville, Ore., and Benjamin F. Allen, Portland, Ore., doing business as "Elkins' syndicate." Judge E. M. Brink, Prineville, D. F. Steff, editor of the Cook County Journal of Prineville; A. C. Palmer and H. J. Palmer, lawyers, Portland; E. Dorgan, F. J. Devine and J. V. Collins, members of the firm of E. Dorgan & Company, Albany, Ore.; Malcolm McAlpin, merchant, Albany; J. W. Hopkins, attorney, Vancouver, Wash.; W. W. Brown, attorney of Seattle, Wash.; T. H. Watkins, Prineville, and Edgar M. White, saloon-keeper, Portland.

If the allegations of the indictments are true the mode of operation was similar to those used in nearly all the conspiracies that have been found in the state.

Warrants will be issued at once for the arrest of the accused.

Desires a Speedy Trial.

Washington, May 7.—Secretary Hitchcock has received a telegram announcing the indictment of twenty-one well known citizens at Portland, Ore., in land cases. Mr. Hitchcock said that it was the intention of the department to secure a speedy trial of the cases if possible.

BATTLESHIP FLOATED.

Powerful Naval Tugs Manage to Get Her Off the Bar.

Norfolk, Va., May 7.—The battleship Rhode Island was floated during the evening after having been aground on the York Spit bar since Saturday morning. It was due to the efforts of four powerful naval tugs, the Uncas, Wabnetta, Hercules and Mohawk that the big warship was drawn from the sandbar. She was floated at high tide at 6:30 o'clock p. m. The United States cruiser Minneapolis stood by and saw the Rhode Island pulled off the shoals, and would have assisted in getting her off but for her inability to get a hawser aboard the battleship.

When the naval tugs reached the stranded warship, after a thirty-mile run from the Norfolk navyyard, they found the Rhode Island's bow high on the shoal at the eastern entrance to York river. Early in the morning the cruiser Minneapolis endeavored to get a line aboard the Rhode Island's stern, with the assistance of the naval tug Uncas. In maneuvering, the Uncas was in collision with the Rhode Island and carried away part of her rail.

Later the Mohawk went aground alongside the Rhode Island, while passing a hawser aboard that vessel, but eventually got afloat.

Efforts to float the Rhode Island at high tide in the morning did not move the vessel. At low tide the battleship was drawing twenty-four feet of water and eighteen forward. Water was pumped from the forward tanks and every piece of movable material was shifted from the forward part of the ship with the view of lightening that quarter. In the afternoon the naval tugs tandemed up, at high tide, for a try at the battleship. Their efforts were successful. The Rhode Island then dropped anchor in the mouth of York river and will come to Hampton Roads in the morning.

The extent of the injury to the ship is not known. It develops that there was no native pilot taken aboard the vessel when she entered the capes. The Virginia pilots say that one was offered, but refused. No other pilot would have undertaken to take the ship to York bay.

Destructive Fire in Florida.

Jacksonville, Fla., May 7.—Fire in the storage yards of the Wenrick-Mariner Chemical company in the western suburb of this city at night destroyed 15,000 tons of batting draught, a rosin waste used by the company in making oil, valued at \$150,000.

Costly Fire at Yakima, Wash.

Yakima, Wash., May 7.—Fire here at night caused a loss of \$150,000 in the shipping district. The Northern Pacific freight depot and contents, \$50,000, and the Yakima Produce company, \$5,000, were the heaviest losers.

MYSTERIOUS SHOOTING AFFRAY.

One Man Killed and Another Man and His Daughter Wounded.

Nashville, Tenn., May 7.—Marvin Winters was killed and Thomas Stewart and his young daughter were severely wounded during a shooting affray at Stewart's home near Pleasant View, Cheatham county, during the night. The cause of the shooting is a mystery.

A few days ago Stewart received a letter warning him that if he and his family did not leave the neighborhood within ten days they would all be killed.

About 11 o'clock p. m. a mob surrounded Stewart's house and opened fire on it and Stewart and his daughter were wounded. Stewart returned the shots and the mob scattered. In the morning the body of Winters was found about fifty yards from Stewart's home.

No explanation whatever can be secured to account for the action of the mob nor has any light been so far shed on how Winters came to his death.

Beware of Ointments for Catarrh that Contain Mercury.

as mercury will surely destroy the sense of smell and completely derange the whole system when entering through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is too fast for the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price, 75c. per bottle. Take Hall's Family Pills for constipation.
